

December 17, 2006

The Multi-Information Conference 2007 - the 25th annual conference for librarians and information scientists, 5 -7 Feb. 2007 at the Kfar Hamaccabiah Congress Center.

We hereby give a list of some of the main subjects at the conference:

Techniques of textual information.

Information management in the new age.

Genealogy.

The European-Israeli Seminar on: Libraries and the community.

The internet: The good one and the bad one.

A special session is given on high level research on librarianship.

Architecture and libraries.

Marketing – new ways.

Homage to leading writers who passed away a year ago.

Information services – new developments.

An invitation to all exhibitors who wish to expose at the Multi-Information Conference 2007 and for sponsorship

At the exhibition the following services will be provided:

Internet services, computation, technologies of libraries and information scientist's software and data bases.

The exhibition is intended for a community specialized in the information field. It is open to all companies, agencies manufacturers and services providers who are interested to meet the participants at the conference.

The Israeli Center for Libraries Web-site is: www.icl.org.il

The ASMI Web-site is: www.asmi.org.il

Our Web-site will spread information about the conference and the exhibition to all internet navigators.

The exhibition will be in a tent at the Conference Center of the Kfar Hamaccabia, on Monday and Tuesday, 5-6 Feb. 2007.

Publications will be made through several channels: the press, newspapers, public relations, direct posting, including distribution of invitations.

Invitation for sponsorship

Sponsorship: publication of the sponsor will be in signpost, newspapers and all the conference publications, including flyers in the participant's bags.
